## SAVANNA - 2007/2017

An unusual expression of Savanna rum, distilled from molasses and fully aged on Réunion Island. Dark amber in colour, and with a typical sherry nose: raisiny, with notes of coffee and black chocolate. Almost no sweetness can be found: this is truly a dry Oloroso style, peppery and almost astringent, extremely winey, with a pleasant hint of old leather and oak.

### TROPICAL AGEING

This rum has been fully matured at the distillery of origin, in a Tropical climate. The effect of the warm weather and humidity speeds the maturation process and the interaction with the oak of the cask: the result is a rum which is already perfectly mature and fully expressive at a relatively young age, and a very bold flavour profile which differs from that of rums which have been aged only for a period in the Tropics and then in Europe for the remaining maturation period.
